Selection process

- Permanent water storages in SE Queensland reviewed
- Five options identified for further assessment including wind rose analysis
- Three options greenfields, one partially developed and one fully developed (interstate)
- Assessment involved EKS (international specialist consultant to the Bid Taskforce), Queensland Bid Taskforce, Rowing Queensland and Rowing Australia. Civil Consultants were engaged to provide capital cost estimates
- Venue Legacy Business Plan prepared by Rowing Queensland for selected site
- Selected site endorsement Rowing Queensland → Rowing Australia → Bid Taskforce → World Rowing → IOC

Why QSRC – Lake Wyaralong

- Permanent body of still water
- Established as the Queensland State Rowing Centre
- 10 lane course with capacity to accommodate warm-up and training courses
- Favourable wind conditions +50 km from coast
- Fair course, rowable in all but most severe (westerly winds) = athlete experience
- Favourable layout for spectators and infrastructure – requires re-development of facilities
- Iconic Australian bush location
- Capital cost

Challenges

- Travel time from athlete village = satellite village
- Access

Design and Development Concepts

- Course turned through 180° N-S and moved to the west
- Current QSRC Headland to be abandoned with new development on Western peninsular
- New road access
- Training course constructed in western arm
- Warmup loop behind start
- Design to be fit for purpose, steel, colour bond, concrete and grass surfaces
- Permanent structures, finish tower, boat sheds, stand , office and first aid facilities, pontoons, ablutions and boat trailer and car parks
- Moveable held starting and held start platforms
- Temporary stands, ablutions and media centre to host spectators
- Ownership to remain with Rowing Queensland – business case supports future operations
